# USPS-FY20-30:  FY 2020 Market Dominant NSA Materials

**PREFACE**

**A. Purpose and Content**

USPS-FY20-30, FY 2020 Market Dominant NSA Materials reports unit costs by function.  Historically, as the name suggests, this ACR folder has reported the revenues and volumes associated with Market Dominant NSAs that were in effect during the reporting fiscal year, and has also accounted for the net benefits of these agreements.  Because, there were no Market Dominant NSAs in effect in FY 2020, there is no financial information to report, so that Excel workbook has been removed from the contents of this ACR folder.  Section III of this preface includes some information about certain services included in the Mail Classification System (MCS) under Address Management Services.

**B. Predecessor Document**

USPS-FY19-30 (FY 2019 Market Dominant NSA Materials)

**C. Corresponding Non-Public Document**

There is no corresponding non-public document.  Information on competitive domestic NSAs is found in USPS-FY20-NP27.

**D. Methodology**

The unit costs by postal function (e.g. mail processing and delivery) are obtained from the relevant ACR folder and are summarized on the tab 'Summary' in the workbook included in this folder.
